

Katy

Rescued: 23rd January 2012
Rehomed: 4th February 2012

On the 23rd January we rescued a 6 month old rough coated little female lurcher from the pound. She was in there with her 3 siblings who were dumped by the breeder when he couldn't sell them. We named her Katy and she was rescued along with her sister Sally who went up for adoption with BARC.

For the whole 6 months of their lives, these dogs had been kept in a tiny pen. They had never been out for a walk, never been on a lead and never been in a home. After some initial training we managed to get Katy used to her collar and lead.

Within a few days a lovely couple, Siobahn and Duane, had seen Katy on our facebook page and fell in love with her. We told them about Katy being timid of things she had never seen before but this didn't stop them. They spent every day at the kennels with her to build up her trust in them.

The following weekend she was officially adopted. Katy has gone to a lovely home with a huge garden and another little dog, Sweep, to play with. She has settled in really well and as a thank you for saving Katy, Siobhan and Duane have renamed her to Willow.

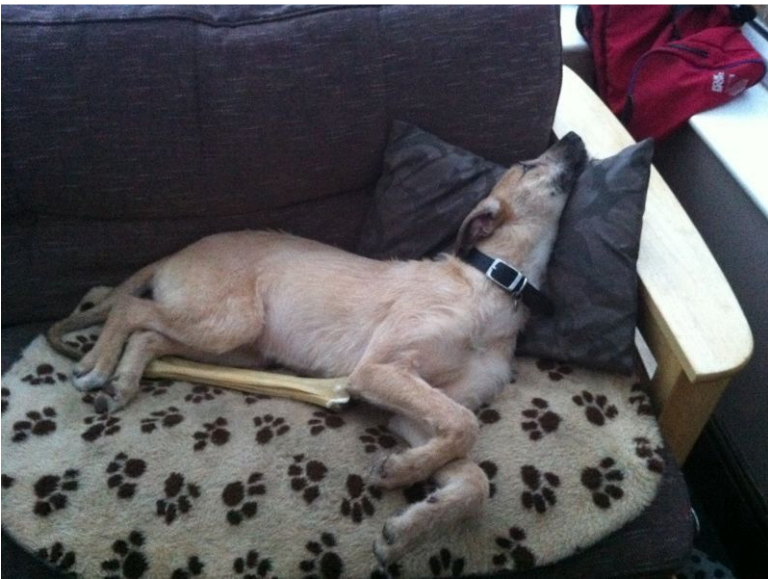

Katy when she first arrived.

Having lead training.

After a days training.

Relaxing in her new home.
