

Mia

Rescued: 7th June 2011
Rehomed: 14th December 2011

Mia came to us on the 7th June 2011 in a dreadful state. She was a skinny, fragile, frail, tiny, starved flea and worm ridden dog – ‘a true rescue’. She was in such a poor condition that the vet said it was difficult to guess her age but told us she was probably between 3 and 6 years old.

After treatment for her flea allergy she made her way into a foster home where Mia’s issues became apparent. She was a lovely little dog that needed to please her owners but there was the ‘possessiveness’ that arose. She would lunge at anyone who came near to the person she was sitting with! She would also ‘attack’ the Hoover. After spending a few months in the foster home we knew she needed someone who would be firm but kind, have no small children, no cats and no other dogs. We thought it was going to be very difficult to find someone for her with her issues but we were then contacted by a lovely lady called Mary.

Mia when she arrived...

Mary had seen Mia on our website and immediately fell in love. She was exactly what Mia was looking for. After spending 1 month with Mary and her brother William on temporary foster, Mia has become a permanent resident and has officially been adopted.

Today she is a completely different dog to the one that arrived from the pound. She is happy and healthy. Mary is working on Mia’s issues and progress is being made. She is such a smart little dog and although there are still times when she forgets, she is going in the right direction.

Everyone at Willow Dog Rescue would like to say a big THANK YOU to Mary and William for all of their hard work and commitment to Mia.
